Career Objective

Highly motivated GIS Specialist and Surveying Technician with practical experience in road construction and infrastructure projects. Seeking to contribute geospatial analysis, surveying expertise, and data processing skills to support decision-making and infrastructure development efforts.

Education

Bachelor's Degree in Geography and GIS
Faculty of Arts, Menoufia University
Expected Graduation: 2026
Final Year Student

Work Experience

Surveying & Construction Technician – Roads & Infrastructure
Concord for Contracting | New Alamein | 2024 (6 months)

- Operated leveling and Total Station instruments on construction sites
- Worked on AutoCAD to interpret and modify engineering drawings
- Extracted spatial data from project plans and ensured field implementation accuracy

Surveying Specialist – Road Paving & Infrastructure Project
El-Saeedy Contracting Office | Menoufia | 2022–2023

- Conducted field surveys using leveling and Total Station devices
- Created site layouts and elevation profiles for infrastructure execution
- Verified site data and collaborated with engineers to maintain precision

Internships

Summer Practical Training – Surveying & GIS Applications
Loclia in collaboration with GIG & EDGE-Pro | July 2025

- Hands-on training in GIS fundamentals, spatial data analysis, and map creation using ArcGIS Pro and QGIS
- Remote sensing techniques using satellite & drone imagery, image processing with Erdas Imagine
- Introduction to geo-programming: built GIS web apps and dashboards using HTML, CSS, JavaScript (React) and MAPP Enterprise
- Completed a full GIS project with real data and presented final results

Certifications

Esri Training – Online MOOCs *(Total: 114+ Hours)*

- Make an Impact with Modern Geo Apps – 20 hrs
- Going Places with Spatial Analysis – 30 hrs
- GIS for Climate Action – 30 hrs
- Working with Charts and Reports in ArcGIS Pro – 4 hrs

GIS Bloggers Intensive Course *(Aug – Oct 2024)*

- ArcGIS Pro, ArcGIS Online, AutoCAD, Google Earth
- Spatial and attribute data download
- Satellite imagery handling

Statistical Analysis with SPSS

- Data entry, descriptive statistics
- SPSS interface and core functions

Technical Skills

- ArcGIS Pro / ArcGIS Online / Qgis
- AutoCAD / Civil 3D
- SPSS / PostgresSQL
- Google Earth / Erdas Imagine
- Surveying Instruments: Total Station, GPS
- Microsoft Office (Excel, Word, PowerPoint)

Languages

- Arabic: Native
- English: Good
- German: Good
